MEMORANDUM FOR DIRECTOR OF INTELLIGENCE COMMUNITY STAFF

SUBJ: Nuclear Weapons Master Plan, Phase II (NWMP-II) Intelligence Working Group (IWG) Recommended Studies

25X1

REF: (a) DCI/ICS 83-4482 dtd 10 AUG 83
 (b) OUSDRE 83-0851 dtd 12 AUG 83

1. As requested in reference (a), I have reviewed the NWMP-II IWG proposed follow-on study topics. I share your concern that the Intelligence Community should participate actively in those studies which will impact on NFIP assets. It is essential that the NWMP-II study results be folded into ongoing Intelligence Community planning initiatives.

25X1

2. By reference (b), OSD has already promulgated lead agency sponsorship and funding for each study. I foresee no need for full-time participation by members of my staff; however, we may well be able to contribute through our continued participation on existing Intelligence Community committees and working groups, once the degree of OSD/DCI cooperation/interaction on the studies is resolved.

25X1

3. Of the 14 follow-on studies, four appear to be prime candidates for joint OSD/DCI leadership:

25X1

- a. Study #1, Intelligence Requirements;
- b. Study #7, Ground Systems Intelligence Capability;
- c. Study #9, Exercise Support; and
- d. Study #11, COMINT Processing.

4. Although the results of the other ten studies will also be of considerable interest to the Intelligence Community, OSD lead in these studies seems appropriate.

25X1
